

# Ennov Doc for Regulatory Enterprise Document Management Software

A comprehensive, flexible, scalable and secure document management solution designed to help you streamline processes and increase operational efficiency while eliminating regulatory compliance risk.

## The Regulatory EDMS Challenge

Authoring, reviewing, approving and tracking documents that are destined for global regulatory submissions can be a challenge. Submission teams across multiple departments and locations must collaborate effectively to ensure that timelines and agency commitments are met.

Storing documents on file shares across disparate locations and emailing them among team members is inefficient, impedes productivity and introduces risk. Regulatory Operations staff often needlessly spend time hunting for the correct version of documents – prolonging their tasks at hand and increasing the possibility of missed deadlines.

## Unified Access to All Documents

Ennov Doc for Regulatory provides a comprehensive solution for managing regulatory submission documentation. The document inventory is pre-configured in alignment with the DIA EDM Reference Model and includes all required domains, groups, sub-groups and artifacts.

Ennov Doc’s intuitive user interface and efficient search capabilities allow every employee to quickly locate and access the documents they require. Our intuitive suite of design utilities allow administrators to configure and manage the system without needing IT skills. Ennov Doc’s scalability and security enables you to safely manage large volumes of documents – making it the perfect solution for global deployments.

## Core Capabilities

Pre-configured document inventory
Advanced life cycle management
Flexible rights management
Automatic PDF rendering
Full text and metadata based searching
Controlled printing, copy and paste
Periodic review, expiry and archiving
MS Office 365 and Google Drive connectivity

## Key Features

Integrated worklist dashboard
Configurable document types, workflows and views
Automated email notifications
Intuitive user interface
Integrated PDF viewer
Composite document support
21 CFR Part 11 compliant
100% web-based

Cloud Based or On Premises

Multi-Platform

ISO 9001:2015 Certified

Over 200 Life Sciences Companies Around the World Use Ennov Software

## Why Choose Ennov?

### Hundreds of companies trust Ennov

- Over 15 years of experience providing EDMS solutions  
200+ life sciences customers, many more in other industries.
- Modern architecture and user interface  
100% web-based, Highly scalable. User-centric design.
- Our commitment to your success  
Very high customer satisfaction. 98.5% of projects delivered on time and within budget.

### Providing you freedom of choice

- Available as cloud-based or on-premises deployment  
You can switch between deployment options at any time.
- We make you autonomous  
System configuration and management require no IT skills.
- Improved security and optimized performance  
Data is hosted locally for total flexibility. Single tenancy minimizes business interruptions

Learn more about our unified content and information management platform to support the entire Life Sciences product development continuum at [www.ennov.com](http://www.ennov.com)

Quality

Our comprehensive QMS improves operational efficiency and ensures regulatory compliance

Clinical

Our total solution for capturing and managing Clinical Trial information streamlines clinical operations

Regulatory

Our world-class Regulatory content and information management software accelerates HA approvals

Pharmacovigilance

Our end-to-end solution for collecting, reporting and analyzing human and vet PV data minimizes risk

Commercial

Our complete management of professional events ensures DMOS, EFPIA, HCP and COI compliance

## About Ennov

Headquartered in Paris, with offices in the US and UK, Ennov provides the most original, comprehensive, and cost-effective suite of software solutions for the Life Sciences industry. From leading pharmaceutical companies to emerging biotechs, we proudly serve over 150 companies and 150,000 users around the world.

For more than 20 years, we have been developing innovative, powerful and easy-to-use software for regulated content, data and process management. Our solutions are designed and built to support the entire Life Sciences R&D continuum including Clinical, Regulatory, Quality, Pharmacovigilance and Commercial. Ennov is ISO 9001:2015 certified for all software products and processes and we boast a 100% success rate in customer audits.
